

ArcelorMittal

Press release

11, April, 2019

The ophthalmic unit at Stefan Żeromski hospital in Kraków has received a modern ultrasound device.

The device, worth PLN 125 000, was donated to the hospital by ArcelorMittal Poland and the Steelworks Foundation for Health Care and Social Aid. This equipment will significantly improve the quality of diagnosis and treatment of children and adults. ArcelorMittal unit in Kraków has been supporting the Stefan Żeromski Specialist Hospital in Nowa Huta for some time now. Over the last ten years, it has spent a total of PLN 200 000 for different purposes, such as the purchase of a diode laser with a slit lamp for the ophthalmic ward and the installation of a surveillance system in the hospital building.

- With the use of new equipment, we will be able to diagnose numerous pathologies within the vitreous, retina and optic nerves - says Małgorzata Woś, head of Ophthalmology Department in Żeromski hospital.- Health is invaluable, therefore one of our goals as a socially responsible company is to support projects related to this area. S. Żeromski hospital was the first medical facility for the residents of Nowa Huta and employees of the plant, so we try to support the needs of this hospital, where residents of Kraków including our employees are cured. We know that modern equipment allows to save health and often life, so we are happy that we could contribute to the modernization of the Ophthalmology Department, which both adults and children will use - says Magdalena Kuśmierz from the ArcelorMittal Poland Business Responsibility Office. The purchase of ophthalmic ultrasound allowed to raise the standard of services. - For over 25 years, the steelworks foundation has been actively supporting employees, but it is also in constant contact with health facilities, including the Żeromski hospital. In this hospital, which is located in Nowa Huta, employees of ArcelorMittal Poland and subsidiaries are cured. We see the effects of buying new equipment, and the diagnostics is at a really high level - emphasizes Krzysztof Stypuła, President of the Steelworks Foundation for Health Care and Social Aid

About ArcelorMittal Poland

ArcelorMittal Poland is the biggest steel producer on the Polish market with about 70% of production capacity of the Polish steel industry. The company consists of five steel plants located in Krakow, Dabrowa Gornicza, Sosnowiec, Swietochlowice and Chorzow. It also owns the largest coke plant in Europe – ZK Zdzeszowice. ArcelorMittal Poland employs over 10,000 people and over 14,000 if subsidiaries are taken into account. The company produces a wide range of long, flat, special and semi products for construction, transport and white goods industries.

The company has transformed Polish steelmaking. It has invested PLN 7 bn in modernizing every stage of the production process. Thanks to increasing H&S standards, the company has reduced its accident frequency rate by more than 90 percent. It has decreased the CO2 emissions by 25 percent, thanks to which it has become more environmentally friendly. The company is 1 of 3 companies worldwide able to produce 120 meter rails.

ArcelorMittal Poland is consistently engaged in supporting local communities by carrying out educational, health and safety programmes. The company has invested over PLN 21 m in these projects.

ArcelorMittal is the world's leading steel and mining company, with a presence in 60 countries and an industrial footprint in 18 countries. Guided by a philosophy to produce safe, sustainable steel, we are the leading supplier of quality steel in the major global steel markets including automotive, construction, household appliances and packaging, with world-class research and development and outstanding distribution networks.

Through our core values of sustainability, quality and leadership, we operate responsibly with respect to the health, safety and wellbeing of our employees, contractors and the communities in which we operate.

For us, steel is the fabric of life, as it is at the heart of the modern world from railways to cars and washing machines. We are actively researching and producing steel-based technologies and solutions that make many of the products and components people use in their everyday lives more energy efficient.

We are one of the world's five largest producers of iron ore and metallurgical coal. With a geographically diversified portfolio of iron ore and coal assets, we are strategically positioned to serve our network of steel plants and the external global market. While our steel operations are important customers, our supply to the external market is increasing as we grow.

In 2018, ArcelorMittal had revenues of \$76.0 billion and crude steel production of 92.5 million metric tonnes, while own iron ore production reached 58.5 million metric tonnes.

ArcelorMittal is listed on the stock exchanges of New York (MT), Amsterdam (MT), Paris (MT), Luxembourg (MT) and on the Spanish stock exchanges of Barcelona, Bilbao, Madrid and Valencia (MTS).
