For the purpose of this provision, the concerned CONTRACT may specify the name and details of the proposed subcontractors, for which BUYER has given its prior written authorization and approval, and if possible the list of the parts not subject to such approval.

The CONTRACTOR shall provide the BUYER, if possible before signing the concerned CONTRACT, with the list of the subcontractors (including vendors of components and/or other goods) it may require. The CONTRACTOR shall also provide the BUYER upon first request with the significant order(s) and/or contract(s) the CONTRACTOR entered into with its subcontractors for the performance of a CONTRACT (except for their financial conditions, unless legally required). These documents shall contain at least the purpose and the scope of the subcontracting, the subcontractor's name, the precise description of entrusted

works, supplies and/or service(s), the time of performance, the equipment and material to be used, the manufacturer, the manufacturing place and the delivery date.

For the purpose of this provision, the CONTRACTOR is not obliged to provide BUYER with the significant order(s) and/or contract(s) in extenso, but shall at least provide BUYER in writing with all such information duly certified by the CONTRACTOR as being true, complete and accurate.

11.2 RESPONSIBILITY AND LIABILITY OF THE CONTRACTOR FOR ITS SUBCONTRACTORS

In any case, any subcontracting shall be at the CONTRACTOR'S sole risks and costs and under its entire responsibility and liability.

BUYER's approval of any subcontracting shall not limit in any way the responsibility and the liability of the CONTRACTOR under the concerned CONTRACT, nor entail any BUYER's responsibility. Subcontracting shall not release the CONTRACTOR of any of its contractual obligations, undertakings or liability, the CONTRACTOR remaining fully liable for any action, deficiency, failure, omission or negligence of its subcontractors and their agents as it is for itself and for its own agents.

The CONTRACTOR shall also be responsible for the due compliance by its subcontractors with all health, safety, environment, work conditions and social LAWS and obligations, especially those related to illegal work, as well as with the related provisions of the CONDITIONS and of the concerned CONTRACT. In any case, all CONTRACTOR's subcontractors working on the concerned SITE for the implementation of any part of a CONTRACT shall have been duly, properly and prior insured for the risks related to their activities and works on SITE.

Any failure to comply with these obligations may result in the non payment of the part(s) of the WORKS AND/OR EQUIPMENT achieved in such conditions, without prejudice of any claim for the damages suffered by the BUYER in connection therewith. All relevant registration, business licence certificates or any other legal or statutory requirement shall be obtained and evidenced by the CONTRACTOR and all subcontractors throughout the performance of each CONTRACT.

12 DOCUMENTATION

12.1 GENERALITIES

The CONTRACTOR shall provide the BUYER with the whole DOCUMENTATION by the due date set out in the corresponding CONTRACTUAL TIME SCHEDULE, and according to the form and contents agreed by and between the PARTIES. The CONTRACTOR shall remain wholly liable for the consequences of any inaccuracy, incompleteness, mistake, error and/or omission in the DOCUMENTATION delivered to the BUYER, whether or not the BUYER has raised any reserves with respect to the DOCUMENTATION.

12.2 DOCUMENTATION RELATED TO THE QUALITY OF THE CONTRACTOR'S PERFORMANCE OF EACH CONTRACT

At the date defined in the corresponding CONTRACTUAL TIME SCHEDULE, the CONTRACTOR shall provide the BUYER with a quality, safety and coordination schedule for the performance of its contractual obligations and the specific steps to be achieved in connection therewith. This quality, safety and coordination schedule shall define, among other things:

- the CONTRACTOR's safety schedule;
- the rules for organizing meetings with the BUYER during the CONTRACT;
- the follow-up and control schedule to be followed by the CONTRACTOR in relation to the construction and the implementation of the WORKS AND/OR EQUIPMENT;
- the CONTRACTOR's reporting scheme in relation to the performance of the different steps of the concerned CONTRACT; and
- the CONTRACTOR's management rules regarding the potential changes of the scope of the WORKS AND/OR EQUIPMENT.

12.3 DETAILED TIME SCHEDULE

The CONTRACTOR shall, in compliance with the CONTRACTUAL TIME SCHEDULE, transmit to the BUYER a detailed time schedule with respect to the full performance of the CONTRACT. This detailed time schedule shall fully comply with the CONTRACTUAL TIME SCHEDULE itself and include all steps and stages required for the due, proper and timely delivery of the WORKS AND/OR EQUIPMENT.

13 FOLLOW-UP, INSPECTION

13.1 FOLLOW-UP BY THE CONTRACTOR

The CONTRACTOR shall be liable for itself as well as for its subcontractors for all controls and inspections verifying the due fulfilment of its obligations and undertakings as stated in the concerned CONTRACT. Moreover, the CONTRACTOR shall provide the BUYER on a regular basis with a progress report on the studies, procurement, manufacture and/or performance of the WORKS AND/OR EQUIPMENT as well as a statement of all faced problems and corresponding corrective actions and measures carried out or proposed in relation thereto.

13.2 INSPECTIONS BY BUYER

The BUYER may, at its own expenses and during working DAYS, perform any inspection related to any CONTRACT either in the CONTRACTOR's workshops, in the ones of the CONTRACTOR's subcontractors or on SITE. The time, duration, and conditions of such inspections shall be determined by the PARTIES so as not to interfere with, nor unreasonably delay the progress of the concerned manufacturing operations.

When during such inspections the BUYER detects defaults or defects, the BUYER may reject the WORKS AND/OR EQUIPMENT in whole or in part. If rejection seems not to be justified or necessary, the BUYER may give to the CONTRACTOR any comments that the BUYER deems appropriate in order to make the WORKS AND/OR EQUIPMENT comply with the concerned CONTRACT. The CONTRACTOR shall promptly remedy said defaults and defects and carry out any appropriate corrective actions.

The inspection of the WORKS AND/OR EQUIPMENT by the BUYER shall not mean nor imply any BUYER's acceptance of the concerned WORKS AND/OR EQUIPMENT or any part thereof. Moreover, the CONTRACTOR shall remain in any case fully liable and bears all risks related to the WORKS AND/OR EQUIPMENT until their ACCEPTANCE.

14 TRANSPORT, PACKAGING, HANDLING, DELIVERY

For the transportation, handling, delivery and storage of the WORKS AND/OR EQUIPMENT and/or any part thereof, the CONTRACTOR shall take into consideration the environment and the situation of each concerned SITE and comply with all SITE's safety rules.

14.1 TRANSPORT OF THE WORKS AND/OR EQUIPMENT

The CONTRACTOR shall transport at its own expenses and risks all goods related to the WORKS AND/OR EQUIPMENT to be delivered to the BUYER under the concerned CONTRACT. The CONTRACTOR shall bear all costs, risks and responsibilities in relation to (i) import and export licences and duties as well as (ii) the transportation, lashing and securing of the WORKS AND/OR EQUIPMENT and/or any part thereof to be delivered on SITE.

Except as otherwise provided in the concerned CONTRACT, the term of delivery shall be DDP (Delivery Duty Paid, according to the INCOTERMS) unloaded, all unloading operations being at the CONTRACTOR's risks and liability.

All documents related to transportation, customs and/or deliveries of any part of the WORKS AND/OR EQUIPMENT shall be submitted to the BUYER in due time before delivery.

14.2 PACKAGING OF THE WORKS AND/OR EQUIPMENT

The WORKS AND/OR EQUIPMENT shall be packed sufficiently and protected in such a way that no damages can arise during their transportation, their handling and their storage on SITE. ***Unless otherwise specified in the concerned CONTRACT, the CONTRACTOR shall take back at its own expenses the packaging material after delivery.***

14.3 TIME AND PLACE OF DELIVERY OF THE WORKS AND/OR EQUIPMENT

The CONTRACTOR undertakes to deliver the WORKS AND/OR EQUIPMENT according to the concerned CONTRACTUAL TIME SCHEDULE and at the place designed in each CONTRACT. For coordination purposes, the PARTIES agree that no shipment may be made without prior notice to the BUYER, which reserves the right to postpone at that time any shipment when reasonably necessary, for safety or coordination reasons and/or to comply with compulsory regulations.

The CONTRACTOR shall immediately notify the BUYER in writing of any delay(s) which may occur with respect to the CONTRACTUAL TIME SCHEDULE and simultaneously give all information about (i) the

reason and extent of said delay and (ii) the corrective actions and measures the CONTRACTOR will carry out in order to avoid, strive with or recover said delay.

14.4 HANDLING AND/OR UNLOADING OF THE WORKS AND/OR EQUIPMENT

If the use of any BUYER's lifting and/or handling equipment is needed to deliver and/or handle on SITE any part of the WORKS AND/OR EQUIPMENT, this shall take place at the CONTRACTOR's own risks and only after the express prior authorization of a duly authorized BUYER's representative. For the purpose of the above, the BUYER shall be notified at least twenty-four (24) hours in advance.

15 IMPLEMENTATION CONDITIONS ON SITE

15.1 CONTRACTOR'S STAFF AND MATERIALS

The CONTRACTOR shall employ qualified and skilled staff and provide sufficient necessary or appropriate materials, means and/or tools, including inspected and certified ones when requested, at any stage of the performance of each CONTRACT in order to fulfil its contractual obligations and to ensure the due and proper implementation of any and all WORKS AND/OR EQUIPMENT.

The CONTRACTOR shall designate for each CONTRACT a qualified representative managing its staff and all its subcontractors. The BUYER shall appoint a "Project Manager" for the coordination of each CONTRACT, such Project Manager having also to ensure interface with other involved departments of the BUYER.

The CONTRACTOR undertakes to comply with all provisions contained in labo(u)r, safety and health LAWS regarding its staff, to execute or cause to be executed as the case may be all forms and other documents it has or may have to fulfil with regard to taxes, salaries, social contributions and insurance, and to pay or to have instructed payment of all duties and taxes, salaries, social contributions, penalties at its charge, or to cover these with specific guarantees (in particular payment guarantees) accepted by the BUYER.

The CONTRACTOR's staff shall duly conform to BUYER's internal rules as notified by the BUYER and/or the SITE, including those related to protective clothing and safety equipment. The BUYER may require immediate replacement and not allow entrance to anyone of CONTRACTOR's staff and/or subcontractors who act(s) in a careless or disrespectful manner and/or in breach of any applicable regulations, internal rules and/or any further safety directions given by the SITE.

15.2 PREVENTION PLAN, SAFETY COORDINATION AND WORK AUTHORISATIONS

The implementation of the WORKS AND/OR EQUIPMENT on SITE shall only begin after the making out of a prevention and safety plan by the BUYER, the CONTRACTOR, its staff and any subcontractor or third party involved, in accordance with the LAWS. The BUYER shall provide the CONTRACTOR with access to the SITE at any reasonable time as from the agreed starting date of the CONTRACTOR's activity on SITE, provided that (i) the CONTRACTOR has previously obtained from the BUYER all required authorizations of works (in particular in relation to safety matters) according to the regulations of each concerned SITE and that (ii) all CONTRACTOR's staff (including its subcontractors' staff) intervening on SITE has prior successfully attended the safety introduction meeting organized on SITE. The BUYER may not unreasonably refuse such authorizations of works.

Prior to the CONTRACTOR's arrival on the concerned SITE to perform any CONTRACT, the PARTIES shall agree upon the location plan of the CONTRACTOR's working and recreation facilities, sanitary appliances and storage facilities. Only areas approved by the BUYER may be covered by the above-mentioned installations. No accommodation facilities for overnight stays on SITE of the CONTRACTOR's employees shall be allowed.

The CONTRACTOR shall be responsible for the safety coordination of all works and/or services the CONTRACTOR performs directly or indirectly in relation to the supply of the WORKS AND/OR EQUIPMENT, and as such it shall notably be responsible for its staff, representatives, agents and subcontractors with respect to all safety instructions in accordance with the LAWS.

The CONTRACTOR shall in any case before and throughout the performance of any CONTRACT provide its employees, agents, representatives and subcontractors with all relevant information concerning the SITE as well as all risks and constraints relating thereto.

The CONTRACTOR further undertakes to (i) duly and immediately inform the concerned SITE's representatives of any accident, personal injury, accidental contamination and/or pollution occurred on or nearby the SITE as well as of any hazardous or radioactive product noted or discovered during the

implementation of the concerned CONTRACT, especially in relation to the WORKS AND/OR EQUIPMENT, and (ii) take all appropriate measures and actions to mitigate the consequences arising or which may arise therefrom.

15.3 SITE CLEANUP & CLEARANCE

The CONTRACTOR shall not introduce in any SITE any hazardous and/or radioactive product without BUYER's prior express agreement. Failing to do so, the costs incurred for the compulsory or appropriate evacuation and treatment of those products as well as any damages arising from such introduction, evacuation or treatment shall be entirely borne by the CONTRACTOR, including in case of personal injuries.

When the CONTRACTOR has been authorised to introduce hazardous products in a SITE, the CONTRACTOR shall (i) handle and store them in due compliance with applicable LAWS and SITE's internal rules, as well as (ii) take any and all preventive measures to avoid any contamination or pollution on SITE and/or to any person intervening on SITE.

All wastes, including hazardous products, shall be treated and removed regularly in due compliance with applicable LAWS and SITE's internal rules at the CONTRACTOR's sole expenses and risks. If the CONTRACTOR fails to fulfil this obligation upon receipt of one (1) request and after one (1) DAY grace period, the BUYER shall be entitled to appoint any third party to carry out this obligation at the CONTRACTOR's costs. A container for the CONTRACTOR's own household waste shall be provided by the CONTRACTOR.

Retrievable scraps on SITE shall be left at BUYER's disposal by the CONTRACTOR at the designated place(s).

The SITE shall be kept in clean and tidy conditions by the CONTRACTOR. Rubbish, scraps and all unnecessary materials and equipment shall be removed daily by the CONTRACTOR. All residual materials, the CONTRACTOR's own staff facilities and waste shall be removed from BUYER's premises and/or the SITE and at the latest upon completion of erection the WORKS AND/OR EQUIPMENT.

15.4 CONDUCT ON SITE

The CONTRACTOR shall adapt its operations to the SITE and to the SITE's operations and activities at any stage of the performance of the WORKS AND/OR EQUIPMENT. Any other works or activities carried out on SITE either by the BUYER or any third party during the same period shall be taken into consideration by the CONTRACTOR, which shall implement and comply with all instructions given by BUYER's coordinator or representatives.

The CONTRACTOR shall carry out all measures so as the implementation of the WORKS AND/OR EQUIPMENT may not affect nor impair in any way the BUYER's productivity and/or activities on the concerned SITE, it being specified that the modalities of any unavoidable disruption or suspension of BUYER's productivity and/or activities due to CONTRACTOR's operations shall be expressly prior agreed by the PARTIES. The CONTRACTOR shall also take all protective measures to avoid any nuisance to neighbours (especially in terms of noise, dust, oil and any other pollution) so that BUYER's responsibility will not be investigated by any public administration or any third party in relation to the CONTRACT and/or the WORKS AND/OR EQUIPMENT, the CONTRACTOR being fully responsible for the consequences arising therefrom.

15.5 USE OF BUYER'S PREMISES

The CONTRACTOR shall use at its own risks and costs the premises and facilities put by the BUYER at its disposal on or near the SITE for and during the implementation of any CONTRACT. The BUYER may recover at any time such premises and facilities after a five (5)-DAY prior notice. The CONTRACTOR shall be responsible for the custody of such premises and facilities, including any equipment, machines, tools, materials and other staff's equipment.

The CONTRACTOR undertakes to maintain these premises and facilities in good state and condition, clean and safe throughout the performance of the concerned CONTRACT and not to modify them without BUYER's prior express agreement.

The BUYER shall not be liable for any losses or damages related to the use of said premises and facilities by the CONTRACTOR, in particular in case of theft, fire, etc., caused to or suffered by the CONTRACTOR's equipment, machines, tools, materials and other staff's and/or subcontractors' equipment.

If the BUYER makes its roads, railways and/or other internal transport means existing on or available to the concerned SITE, available to the CONTRACTOR for implementing any part of the WORKS AND/OR EQUIPMENT, the CONTRACTOR shall use them at its own risks, in compliance with the LAWS, the concerned CONTRACT and/or any other regulations and/or conditions applicable with this respect as well as in such a way so as not to hinder BUYER's own activities and production and/or traffic and to optimize the use of said roads, rails and internal transport means.

15.6 BUYER'S SUPPLIES

15.6.1 SUPPLY OF POWER, FLUIDS AND GAS

The BUYER may provide electricity, gas, water, steam or compressed air to the CONTRACTOR (i) for the strict performance of the concerned CONTRACT and/or WORKS AND/OR EQUIPMENT on SITE and (ii) provided that the capacity, quantity and/or frequency of the concerned supply(ies) as specified by the CONTRACTOR is available on the concerned SITE.

The CONTRACTOR shall use such supplies in such a way to keep their consumption within normal limits and to avoid any disruption of BUYER's networks. The BUYER may request compensation for the costs engaged in relation to these supplies, provided it was agreed in the concerned CONTRACT.

Utilization and consumption of these supplies are at the CONTRACTOR's own risks, the BUYER not being liable for any failures in relation to such supplies and facilities, except in case of BUYER's fault in this respect.

In case no power is available on the concerned SITE during a time period of more than twenty-four (24) hours and provided that the use of power is substantial at that moment without any possibility to find any other suitable solution, the CONTRACTUAL TIME SCHEDULE shall be amended by the PARTIES provided that the deadlines specified in the said CONTRACTUAL TIME SCHEDULE have been effectively affected thereby.

15.6.2 LOAN OF MATERIALS AND TOOLS BY THE BUYER

Upon the CONTRACTOR's express request, the BUYER may lend some materials and/or tools from time to time (for example hardware, software already included in SITE's equipment and/or facilities, crane, travelling crane, etc.) to the CONTRACTOR. For significant materials and/or tools to be lent to the CONTRACTOR, either regularly or for a specific time period, a list of these materials and/or tools as well as the conditions applicable thereto shall be especially agreed upon by the PARTIES in a specific written document.

In any case, the CONTRACTOR shall prior check the conformity, suitability and adequateness of such materials and tools to the use it intends for them.

All tools and/or materials lent to the CONTRACTOR by the BUYER shall be returned to the BUYER by the ACCEPTANCE, complete and at least in the same state as they were at the date they have been put at the CONTRACTOR's disposal.

As from the date the BUYER put them at the CONTRACTOR's disposal and throughout the time period during which the CONTRACTOR has said materials and tools in its custody, the CONTRACTOR shall bear all risks of operation, control, deterioration, depreciation and loss of these materials and tools. As a consequence, the CONTRACTOR shall be responsible for all these tools and materials, for their use and safe keeping in quantity and quality and shall compensate the BUYER accordingly. These tools and materials (except those specified in a specific written document as mentioned here above) may be withdrawn at any time by the BUYER without compensation nor any prior notice.

The materials and tools provided by the BUYER shall remain its property. If the CONTRACTOR has any doubts about the quality of the tools and/or materials put at its disposal by the BUYER, the CONTRACTOR shall inform the BUYER forthwith.

The transport of BUYER's tools and materials from BUYER's warehouses or stores to the utilization place as well as the loading, lashing, securing, unloading and handling of such tools and materials shall be at the CONTRACTOR's entire responsibility and costs. Residual quantities of the materials provided under this Clause (including scrap) shall be returned free-of-charge and without undue delay to the location on the SITE or any such other place near the SITE as designated by the BUYER. The CONTRACTOR shall, at BUYER's request, document the consumption of all materials provided by the BUYER under this Clause.

15.6.3 SUPPLY BY THE BUYER OF MATERIAL AND SERVICES TO BE INCORPORATED IN THE WORKS AND/OR EQUIPMENT

If the PARTIES agree that the BUYER or any third party will provide some goods, materials or services to the CONTRACTOR for their incorporation in the WORKS AND/OR EQUIPMENT, then the CONTRACTOR

shall control the quality of their implementation and/or incorporation, and bear all risks and costs related to these goods, materials and services, the BUYER or the concerned third party remaining however liable for (i) hidden defects of the goods, materials and services, which have been directly provided by them, as well as for (ii) a lack of quality of those goods, materials and services with respect to the specification prior submitted for this purpose by the CONTRACTOR, provided and to the extent that this lack of quality could not have been detected upon the CONTRACTOR's reasonable inspection.

15.6.4 CONTRACTOR'S LIABILITY IN RELATION TO BUYER'S SUPPLIES

The CONTRACTOR's liability under the concerned CONTRACT cannot be altered by the fact that goods, materials, services and/or tools provided by the BUYER or BUYER's subcontractors have been lent, performed, provided and/or installed by the BUYER or such subcontractors. The CONTRACTOR shall supervise the appropriate implementation and/or incorporation of said materials, services or tools and check that applicable requirements have been duly and properly met. The CONTRACTOR shall notify without undue delay to the BUYER and as the case may be the concerned subcontractor(s), all defects or problems relating to such supplies. In any case, the BUYER shall not be liable for any mistake, omission or incorrect performance resulting from insufficient, wrong and/or inappropriate CONTRACTOR's supervision, check and/or instructions.

The Parties agree that the deliveries of BUYER based on Contractor's Engineering, if any, are manufactured under BUYER's own responsibility and therefore are not deliveries as defined in Articles 15.6.3 and 15.6.4 of the CONDITIONS unless otherwise specified in the CONTRACT. This clause is not applicable in case of defects of Contractor's Engineering.

16 TESTS

16.1 GENERALITIES

The execution modalities of all TESTS to be performed under any CONTRACT are described in the said CONTRACT. The TESTS shall be carried out by the CONTRACTOR in the presence of BUYER's representatives, and if necessary with other involved (sub)contractors, in order to carry out the INDUSTRIAL COMMISSIONING of the WORKS AND/OR EQUIPMENT and for the CONTRACTOR to cure all defects and malfunctions detrimental to their operation. All TESTS shall be evidenced by written reports signed by both PARTIES as well as any involved (sub)contractors.

16.2 TESTING STAFF AND MATERIALS

All TESTS in relation to the WORKS AND/OR EQUIPMENT (whether load/hot TESTS or no-load/cold TESTS) shall be performed by the CONTRACTOR. After the R.F.I.O and at the CONTRACTOR's reasonable request, the BUYER agrees to dedicate, free of charge and for an appropriate time period, a sufficient number of qualified and experienced operators and/or workers for the performance of the TESTS, such TESTS being performed under the CONTRACTOR's direction and supervision. The BUYER shall also reasonably provide at its own costs and during an appropriate period of time materials, consumables, supplies and/or the services of the BUYER internal laboratories as needed for the execution of the TESTS and as prior agreed by the PARTIES, all other costs in connection with the TESTS being for the CONTRACTOR's account.

16.3 OPERATION DURING TESTS

During the TESTS, the WORKS AND/OR EQUIPMENT (including coordination with all related systems) shall be operated under the CONTRACTOR's direction and supervision, in accordance with the requirements of the concerned CONTRACT and the operation manuals and instructions of the CONTRACTOR. Consequently, the CONTRACTOR shall, at its own costs and under its sole responsibility, provide a sufficient number of its own skilled employees and/or engineers as deemed appropriate for the safe completion of the TESTS as well as for the TESTS' direction and supervision.

16.4 REPETITION OF TESTS

Any TEST which results are not in conformity with the parameters, requirements and performances agreed upon in any CONTRACT shall be performed again under the CONTRACTOR's direction and supervision until those parameters, requirements and performances are duly fulfilled. The BUYER shall reasonably accept further repetitions of the same TESTS, provided that such additional TESTS shall be performed by the CONTRACTOR at its own costs and that the direct costs incurred by the BUYER in connection therewith shall be reimbursed by the CONTRACTOR, under exclusion of BUYER's production costs of sellable products. When after fair evaluation, the reasons of a TESTS' repetition are on both PARTIES, each PARTY shall support its own costs in connection therewith.

A TEST may be repeated twice at the same terms and conditions as applicable to the concerned original TEST. For any further repetition of TEST(S) due to any PARTY's failure or default, the said PARTY shall reimburse to the other PARTY the evidenced direct costs relating to the said repetition of TEST(S).

16.5 CONTRACTOR'S LIABILITY DURING TESTS

All TESTS shall be performed under the CONTRACTOR's direction, supervision and liability. Accordingly, all consequences arising from and/or occurred during the performance of such TESTS shall be borne exclusively by the CONTRACTOR until the ACCEPTANCE of the WORKS AND/OR EQUIPMENT, except for the consequences arising from BUYER's omission or act in breach of the CONTRACTOR's instructions and/or standard operating practices provided by the CONTRACTOR.

17 R.F.I.O. (READY FOR INITIAL OPERATION)

17.1. As soon as the CONTRACTOR considers that the WORKS AND/OR EQUIPMENT are ready for a safe initial operation, the CONTRACTOR shall notify this circumstance in writing to the BUYER.

17.2. The R.F.I.O. shall be evidenced by the CONTRACTOR under its sole liability and shall focus in particular on the fact that the WORKS AND/OR EQUIPMENT:

- are compliant to the LAWS and specific rules regarding safety;
- have necessary collective protection and safety equipment;
- include equipment insuring the accessibility for safe operation, maintenance, disassembling and/or dismounting;
- function in manual and/or automatic mode as appropriate at this stage;
- have appropriate warnings for defects, alarms and security reasons;
- have operation manuals and DOCUMENTATION as appropriate at this stage;
- have undergone all necessary controls prior to their commissioning;
- include identification on SITE and tagging of field instruments, motors, fluids and cables in compliance with the LAWS, as requested at this stage.

The evidence of the R.F.I.O. shall be deemed as not having been demonstrated if any of the above-listed items is not duly fulfilled.

17.3. The absence of BUYER's formal refuse or remarks at this stage shall not mean nor imply any BUYER's acceptance of the concerned WORKS AND/OR EQUIPMENT or any part thereof, provided that BUYER shall not unreasonably withhold his decision, which shall be provided to CONTRACTOR in writing.

The request from the CONTRACTOR to issue an RFIO should be prepared according to Contractual conditions.

BUYER shall not delay or unreasonably withhold approval or acceptance of RFIO as required under the CONTRACT Payment milestone, which may be required under the CONTRACT, for fulfilled CONTRACTOR's obligations.

BUYER shall give acceptance or reject CONTRACTOR'S request giving reasons for rejection within a period of 15 working days after receipt of such request from the CONTRACTOR.

If no response received by CONTRACTOR, CONTRACTOR shall further notify the BUYER to respond within 10 calendar days. In case of no further communication from BUYER or if BUYER does not reject CONTRACTOR'S request giving reasons for rejection, the CONTRACTOR shall be allowed to raise invoice for the said milestone for Payment.

18 INDUSTRIAL COMMISSIONING

The INDUSTRIAL COMMISSIONING shall be carried out under the CONTRACTOR's direction and liability after the execution of the TESTS agreed upon with the BUYER in the concerned CONTRACT.

The BUYER shall only pronounce the satisfactory INDUSTRIAL COMMISSIONING provided that:

- the WORKS AND/OR EQUIPMENT's assembling and erection phases have been achieved in accordance with the concerned CONTRACT;
- the R.F.I.O. has been pronounced and all related reservations, if any, have been raised;

- all TESTS to be carried out prior to the INDUSTRIAL COMMISSIONING have been achieved and all related certificates have been handed over to the BUYER;
- the WORKS AND/OR EQUIPMENT can be industrially run in an entire safe way;
- the training of BUYER's operation and maintenance staff, as defined in the concerned CONTRACT, has been completed; and
- the DOCUMENTATION with respect to the use of the WORKS AND/OR EQUIPMENTS has been handed over to the BUYER.

The INDUSTRIAL COMMISSIONING, evidenced by a written report signed by both PARTIES, shall end when all contractual obligations related to the INDUSTRIAL COMMISSIONING as defined in the concerned CONTRACT have been regularly and constantly achieved for the period of time specified in the said CONTRACT and if not specified, this shall be for a period of at least fifteen (15) DAYS. Then, a statement of INDUSTRIAL COMMISSIONING shall be established by the BUYER and handed over to the CONTRACTOR.

This report shall not in any way be construed as an approval nor an acceptance by the BUYER of the WORKS AND/OR EQUIPMENT or any part thereof.

If the INDUSTRIAL COMMISSIONING cannot be pronounced due to CONTRACTOR's reasons, the CONTRACTOR shall, at its own expenses and risks, carry out all appropriate actions so that the WORKS AND/OR EQUIPMENT meet the conditions and requirements of the concerned CONTRACT in compliance with the CONTRACTUAL TIME SCHEDULE.

All adjustments, tunings, repairs, etc. shall be performed according to a program established under mutual agreement of both PARTIES.

The INDUSTRIAL COMMISSIONING cannot be refused in case of MINOR DEFECTS that do not prevent the efficient, reliable and safe operation and/or use of the WORKS AND/OR EQUIPMENT, provided that the CONTRACTOR commits itself to remedy these defects as soon as possible and in any case by the ACCEPTANCE, such minor defects having to be specified in the INDUSTRIAL COMMISSIONING report, together with the corrective measures to be carried out and the applicable reasonable time schedule to be complied with in this respect.

19 TRAINING

When specified in the concerned CONTRACT, the CONTRACTOR shall organise practical and theoretical training sessions for the staff as designated by the BUYER. The purpose of these training sessions shall be at least to train BUYER's operation and maintenance staff to operate, inspect, maintain and repair safely and effectively the WORKS AND/OR EQUIPMENT.

The CONTRACTOR shall carry out all appropriate measures to provide the BUYER and its staff with all necessary information with respect to all aspects of the WORKS AND/OR EQUIPMENT in relation to their operation and maintenance, including process, know-how, technology, safety, spare parts and material, so as theoretical and practical training sessions be adapted to the development of risks and new risks which may arise with respect to the WORKS AND/OR EQUIPMENT and the best training results be achieved. All training sessions shall be documented by the CONTRACTOR and all related handbooks and documentation shall be handed over to the BUYER no later than the day at which each training session shall take place.

The CONTRACTOR shall notify in due time to the BUYER which of BUYER's employees it considers unable to fulfil efficiently the training. Any non performance of the WORKS AND/OR EQUIPMENT may not be blamed on a deficient training of BUYER's operating personnel.

The training modalities, conditions, objectives and duration as well as the number of people to be trained, the number of sessions, etc., shall be defined in detail by the PARTIES in the concerned CONTRACT.

20 ACCEPTANCE OF THE WORKS AND/OR EQUIPMENT

20.1 GENERALITIES

The CONTRACTOR shall request from the BUYER the acceptance of the WORKS AND/OR EQUIPMENT either after the due completion of all TESTS stipulated in the concerned CONTRACT if the WORKS AND/OR

EQUIPMENT do not justify any INDUSTRIAL COMMISSIONING phase, or after the completion of the INDUSTRIAL COMMISSIONING in all others cases.

Each acceptance, shall be evidenced by a written report signed by both PARTIES, which may give rise to reservations in so far as those reservations do not interfere substantially with the operation of the WORKS AND/OR EQUIPMENT. If these reservations interfere substantially with the operation of the WORKS AND/OR EQUIPMENT, acceptance shall be refused by the BUYER. The CONTRACTOR shall then, within the shortest time period agreed upon with the BUYER, remedy at its own expenses all defects and reservations noted before asking the BUYER for any new acceptance.

Any non-acceptance of the WORKS AND/OR EQUIPMENT for reasons due to the CONTRACTOR shall entitle the BUYER to freely use the WORKS AND/OR EQUIPMENT, provided that the BUYER complies with the CONTRACTOR's operation manuals relating to the WORKS AND/OR EQUIPMENT during the said period of use. In any case, this shall not imply (i) any transfer of risks or liability to the BUYER or (ii) any commencement of any warranty period. In such case, the CONTRACTOR shall be entitled to reasonably carry out necessary repairs and/or replacements to cure its failure as well as to reasonably perform the related TESTS.

20.2 ACCEPTANCE

20.2.1 The ACCEPTANCE of the WORKS AND/OR EQUIPMENT shall only be pronounced provided that:

- the acceptance/performance TESTS and/or trial runs, as mentioned in the concerned CONTRACT, have been achieved with a positive result;
- all LAWS' requirements have been duly met;
- the DOCUMENTATION and DEVELOPMENTS, listing of drawing and files, manuals of instructions and procedures have been prior delivered to the BUYER,
- the SPECIFIC SOFTWARE, including the related source codes and rights have been delivered and transferred to the BUYER;
- the due evidence that the licenses and other rights of use, operation, etc. of the STANDARD SOFTWARE as specified in Clause 31.5 hereunder have been priority granted to the BUYER;
- the training as specified in the concerned CONTRACT has been duly completed by the CONTRACTOR; and
- the SITE cleaning and clearance have been done correctly by the CONTRACTOR; and
- any additional conditions specified for this purpose in the concerned CONTRACT have been prior met.

In any case, the ACCEPTANCE shall only be pronounced after the due expiration of a period of reliable operation of the WORKS AND/OR EQUIPMENT after the INDUSTRIAL COMMISSIONING, as specified in the concerned CONTRACT. When there is no provision with this regard in the CONTRACT, the above-mentioned period shall last three (3) months.

The ACCEPTANCE cannot be refused in case of MINOR DEFECTS that do not prevent the efficient, reliable and safe operation and/or use of the WORKS AND/OR EQUIPMENT, provided that the CONTRACTOR commits itself to remedy these defects as soon as possible and in any case within max. 12 months, such MINOR DEFECTS having to be specified in the ACCEPTANCE report, together with the corrective measures to be carried out and the applicable reasonable time schedule to be complied with in this respect.

20.2.2 POSTPONEMENT OF ANY ACCEPTANCE EXCLUSIVELY ATTRIBUTABLE TO THE BUYER

If the ACCEPTANCE is postponed due to reasons exclusively attributable to the BUYER and under exclusion of any Force Majeure event:

- (i) for more than three (3) months as from the most current scheduled date of the ACCEPTANCE, the payment instalment corresponding to the contractual event of ACCEPTANCE shall be paid by the BUYER upon the simultaneous receipt of:
 - a) a bank guarantee for the amount corresponding to the said contractual event (as well as to any previous contractual event(s) which would be still pending at the above-mentioned date) and valid for at least the time period agreed upon by the PARTIES;
 - b) as well as if applicable and requested by the BUYER, the bank's certificate evidencing that the corresponding bank guarantee issued at the beginning of the completion of the concerned CONTRACT to warrant the due and full completion of the CONTRACT by the CONTRACTOR has been duly extended up to the latest date at which the BUYER foresees that the ACCEPTANCE could take place.

The costs related to the above items a) and b) shall be borne by the BUYER solely;

- (i) for more than six (6) months as from the most current scheduled date of the ACCEPTANCE, the consequences attached to the ACCEPTANCE (i.e. transfer of risks, transfer of ownership and the related warranties) shall occur, it being expressly specified and agreed that such situation shall not be construed as an acceptance by the BUYER of the WORKS AND/OR EQUIPMENT or any part thereof. The PARTIES shall confirm the above without undue delay in a written statement, which shall be communicated to their respective insurers.
- (ii) for more than eighteen (18 months) as from the most recent scheduled date of the ACCEPTANCE, the ACCEPTANCE shall be deemed as having been given, except in case the PARTIES have been agreed otherwise prior to the said deadline or BUYER has reasonable doubts in respect to the compliance of the WORKS AND/OR EQUIPMENT with the concerned CONTRACT or in any other cases when ACCEPTANCE is postponed for reasons other than exclusively attributable to the BUYER.

20.2.3 If a CONTRACTOR's serious breach prevents the ACCEPTANCE of the WORKS AND/OR EQUIPMENT for more than six (6) months as from the date of the INDUSTRIAL COMMISSIONING, the BUYER may definitively refuse the WORKS AND/OR EQUIPMENT, provided that the CONTRACTOR:

- (i) did not prior deliver to the BUYER a credible corrective actions plan to remedy the said serious breach; or
- (ii) did not comply therewith. If the PARTIES agree upon another solution, they shall also specify the latest date at which the transfer of risks related to the WORKS AND/OR EQUIPEMENT shall occur.

21 TRANSFER OF OWNERSHIP AND RISKS

The transfer of ownership and/or risks shall not release the CONTRACTOR from all its remaining obligations, whether contractual or legal.

21.1 TRANSFER OF OWNERSHIP

21.1.1 The transfer of ownership of the WORKS AND/OR EQUIPMENT to the BUYER shall take place at the date of the ACCEPTANCE.

21.1.2 Advanced transfer of ownership

The BUYER shall be entitled to pronounce, without any previous inspection and in accordance with the general principles of the LAWS (especially real estate LAWS and contract LAWS) the advanced transfer of ownership for the amount of down-payments and/or instalments already made, of all or part(s) of the WORKS AND/OR EQUIPMENT, erected or not, in particular in case of, but not limited to, CONTRACTOR's seizure, bankruptcy, concordat, winding-up or insolvency.

In any case, the related risks and liability shall remain on the CONTRACTOR until the ACCEPTANCE.

21.2 TRANSFER OF RISKS

21.2.1 The transfer of risks related to the WORKS AND/OR EQUIPMENT to the BUYER shall occur at the date of the ACCEPTANCE.

21.2.2 Notwithstanding the provisions of Clause 21.2.1 here above, in case the scope of a CONTRACT is strictly limited to the sale and delivery of the WORKS AND/OR EQUIPMENT without any erection on SITE, the transfer of risks related to the said WORKS AND/OR EQUIPMENT shall occur at the date of acceptance by the BUYER of the last part of the WORKS AND/OR EQUIPMENT delivered by the CONTRACTOR on SITE in compliance with Clause 14.1 of the CONDITIONS.

22 SPARE PARTS

22.1 LIST OF SPARE PARTS

On the DAY defined in each CONTRACTUAL TIME SCHEDULE (or within two (2) months after the signature of any CONTRACT if nothing is expressly agreed thereon in the concerned CONTRACTUAL TIME

SCHEDULE), the CONTRACTOR shall provide the BUYER with a detailed, exhaustive and updated list (including trademarks, technical specifications, producers' code numbers and prices) of all spare parts (i) necessary for commissioning and (ii) recommended for two (2) years of the WORKS AND/OR EQUIPMENT's operation and maintenance, the CONTRACTOR having to clearly identify which of these spare parts shall be considered as strategic, as having a long delivery time or as being subject to ordinary wear and tear.

22.2 TIME GUARANTEE CONCERNING THE SUPPLY OF SPARE PARTS

The CONTRACTOR warrants and shall cause its subcontractors or licensees to warrant the sale and supply of:

- (i) patented items manufactured or assembled by the CONTRACTOR and/or its subcontractors or licensees and any other spare parts for the time period during which any related INTELLECTUAL PROPERTY RIGHTS exist and at least for a period of ten (10) years as from the date of ACCEPTANCE of the WORKS AND/OR EQUIPMENT; and
- (ii) computer hardware for a period of five (5) years as from the date of ACCEPTANCE of the WORKS AND/OR EQUIPMENT.

22.3 ALTERNATIVE SOLUTION

If any spare part is no longer manufactured by the CONTRACTOR itself, by its subcontractors, agents, representatives, and/or licensees under reasonable conditions and fulfilment of quality standards or due to technological changes, the CONTRACTOR shall (i) inform the BUYER thereof as soon as possible, (ii) provide an alternative solution compatible with the WORKS AND/OR EQUIPMENT implemented on SITE and (iii) not invoke any INTELLECTUAL PROPERTY RIGHTS against the manufacture and supply of those spare parts by any third party for BUYER's needs.

23 CASTING PATTERNS AND MOULDS

All casting patterns, moulds, calibres and/or special tools that are exclusively manufactured for any CONTRACT by the CONTRACTOR shall become with all their related INTELLECTUAL PROPERTY RIGHTS BUYER's property.

In case a CONTRACTOR's subcontractor refuses to transfer the ownership of the INTELLECTUAL PROPERTY RIGHTS related to any moulds and/or casting patterns together with the said moulds and/or casting patterns as specified above, the CONTRACTOR commits itself that the said subcontractor grants to BUYER, a non exclusive and royalty free licence of the INTELLECTUAL PROPERTY RIGHTS subsisting or embodied in or used in connection with the said moulds and/or casting patterns, for the whole term of protection of such possible INTELLECTUAL PROPERTY RIGHTS, in order to use, copy, reproduce, modify, operate, monitor, repair, or maintain the said moulds and/or casting patterns, with the right to sub-contract such tasks to any third party for the needs of BUYER, of the SITE or the needs specified in the concerned CONTRACT.

Such granting of rights to BUYER shall be included in the price of the WORKS AND/OR EQUIPMENT.

The ACCEPTANCE shall only be pronounced provided that the due evidence that the above-mentioned licence has been formerly granted to BUYER.

Such casting patterns, moulds, calibres and/or special tools shall be delivered to the BUYER before the ACCEPTANCE. The CONTRACTOR shall control in due time such models, tools and goods, and shall inform the BUYER forthwith about any mistake or default noted with this respect. Failing to do so, the CONTRACTOR shall be liable for any damage arising from such mistake or default.

If casting patterns, moulds, calibres and/or special tools are put at the CONTRACTOR's disposal by the BUYER in relation to the WORKS AND/OR EQUIPMENT, they shall remain BUYER's property and may not be used for any other purpose than the implementation of the WORKS AND/OR EQUIPMENT, except with BUYER's prior written agreement. In any case, those casting patterns, moulds, calibres and/or special tools shall all be returned to the BUYER in excellent state and complete by the ACCEPTANCE.

24 DEADLINES, SUSPENSION OF THE PERFORMANCE OF A CONTRACT

24.1 DEADLINES

The deadlines to be complied with by the CONTRACTOR to implement the WORKS AND/OR EQUIPMENT under any CONTRACT will be fixed in the CONTRACTUAL TIME SCHEDULE attached to said CONTRACT.

It will be the CONTRACTOR's sole responsibility to take all necessary or appropriate steps and to implement special measures to comply with the CONTRACTUAL TIME SCHEDULE, without additional costs to the BUYER and provided that the faced delay is not due to circumstance(s) strictly beyond the CONTRACTOR's control. The CONTRACTOR's control includes any action or omission by the CONTRACTOR in accordance with the principles of art. 474 of the Civil Code (with the restriction of liability stipulated in clause 27.1 of the CONDITIONS). The CONTRACTOR is obliged to evidence and document the existence of the circumstances beyond CONTRACTOR's control

The CONTRACTOR shall be responsible for obtaining official approvals in due time for working overtime as well as on Saturdays, Sundays and/or public holidays.

The consequences of weather conditions reasonably expectable as per the calendar and the location of the SITE shall not be considered as sufficient grounds for deadline postponements or cost increases, unless it constitutes a force majeure event as defined hereunder.

For the purpose of the above and provided that the scope of the WORKS AND/OR EQUIPMENT requests the performance of works on SITE, which may be reasonably affected thereby, the CONTRACTUAL TIME SCHEDULE may take into account for its finalization, at the CONTRACTOR's request, a number of bad weather DAYS, which is equal to the average number of bad weather DAYS as officially recorded during the last five (5) calendar years. If the CONTRACTOR does not comply with the CONTRACTUAL TIME SCHEDULE due to the fact that the actual number of officially stated bad weather DAYS is strictly above the above-mentioned average and provided that the CONTRACTOR could not have reasonably been able to absorb them in whole or in part by an adapted organization, the CONTRACTOR may evoke them with respect to the deadlines.

The CONTRACTOR shall inform the BUYER by any appropriate means and without undue delay of any circumstance which affects or may affect the due compliance with the CONTRACTUAL TIME SCHEDULE, and specify the reasons, consequences and expected duration of such circumstances. Any CONTRACTOR's request to postpone one or more deadline(s) of the CONTRACTUAL TIME SCHEDULE shall be justified by the CONTRACTOR and prior expressly agreed upon in writing with the BUYER.

24.2 SUSPENSION OF THE PERFORMANCE OF A CONTRACT BY THE BUYER

On the BUYER's written request, the CONTRACTOR shall suspend the performance of the concerned CONTRACT in whole or in part, in the manner deemed necessary by the BUYER and for the maximum aggregate duration of twelve (12) months. The CONTRACTOR shall, for the duration of this suspension, maintain in good condition the WORKS AND/OR EQUIPMENT already executed and/or stored on the SITE, unless the BUYER expressly release in writing the CONTRACTOR from this obligation.

All additional expenses and costs incurred by the CONTRACTOR as a result of the BUYER's instructions pursuant to this Clause shall be (i) determined without undue delay and specified in a mutual agreement signed by both PARTIES and (ii) borne by the BUYER. Notwithstanding the foregoing, if the suspension arises from the BUYER's decision with respect to safety on SITE, to non performance or breach of the concerned CONTRACT by the CONTRACTOR, to weather conditions officially stated threatening the safe implementation of the WORKS AND/OR EQUIPMENT or any part thereof and/or of any works related thereto or to circumstances under CONTRACTOR's control threatening either safety and/or the quality of the WORKS AND/OR EQUIPMENT, such additional expenses and costs shall be borne by the CONTRACTOR. In case of BUYER's decision with respect to safety on SITE, provided that such decision is not related to any CONTRACTOR's failure, the additional documented and reasonable expenses and costs incurred in relation thereto by BUYER shall be borne by BUYER.

25 FORCE MAJEURE

Neither PARTY shall be held responsible for any failure or delay in the performance of any CONTRACT caused by a force majeure event, i.e. an unforeseeable and irresistible event beyond the PARTIES' reasonable control and which prevents the performance by the affected PARTY of its obligations under any CONTRACT. Are for example considered as force majeure events: irresistible and unforeseeable natural phenomena (such as floods, hurricane, lightning,...), wars, invasions, revolutions, riots, governmental acts, general strikes or similar events, epidemics, etc.

A strike of BUYER's employees or of the employees of any BUYER's subcontractor shall not be considered as force majeure event unless it effectively prevents the CONTRACTOR from performing its contractual obligations under a CONTRACT.

Should any such force majeure event occur and prevent either PARTY from performing in whole or in part its contractual obligations, or may reasonably affect the future performance of its contractual obligations, then such PARTY shall (i) duly inform the other PARTY of said force majeure event without undue delay, (ii) take all necessary steps and actions to mitigate the effects resulting from said force majeure event, including the intervention of any third party if reasonably possible and (iii) inform the other PARTY thereof.

When it turns out that, despite the implementation of the above-mentioned steps and actions, the execution of the concerned CONTRACT has definitely become impossible or will have to be postponed for more than six (6) months as from the notification date of such force majeure event, then the said CONTRACT may be terminated by either PARTY in writing upon a fifteen(15)-DAY prior notice, it being specified that the PARTIES shall do their best endeavours to settle the practical consequences of such termination in equity according to the circumstances.

In any case, each PARTY shall bear the costs and expenses it engaged from the starting point of the force majeure event up to the ending point of said force majeure event or up to the termination date of the CONTRACT.

26 WARRANTIES

26.1 GENERALITIES

The CONTRACTOR warrants that the WORKS AND/OR EQUIPMENT shall conform to the specifications and requirements as set out in the concerned CONTRACT, be free from defects in engineering, design, execution, materials and workmanship, such defects occurring either directly or as a consequence of a decrease of performances as finally agreed by the PARTIES at the ACCEPTANCE, and meet and satisfy all applicable LAWS and other compulsory legal requirements applicable, especially those relating to environment, health and safety.

In any case and whichever shall be the nature of the CONTRACTOR's intervention, all warranties given by the CONTRACTOR under any CONTRACT shall not be less than the compulsory requirements and compulsory laws (including compulsory EU regulations) applicable to the SITE, in particular for building and civil works as well as for sold goods and equipment as performed and/or supplied within the frame or the concerned CONTRACT.

This WARRANTY is fully transferrable by the BUYER, without any additional consent of the CONTRACTOR together with the transfer of the WORKS and/or EQUIPMENT.

The only warranties and representations made by CONTRACTOR are those expressly stated in these CONDITIONS and the concerned CONTRACT; any other warranties and representations are excluded.

For the sake of clarity, this Clause 26 shall not be construed as amending or impairing in any way the terms and conditions set forth in Clause 31 hereunder.

26.2 WARRANTY PERIOD

26.2.1. Unless otherwise expressly stipulated, the duration of the warranty shall be twenty (20) months as from the date of the ACCEPTANCE of the WORKS AND/OR EQUIPMENT.

For any items delivered after such ACCEPTANCE, the warranty period shall be for the above-mentioned time period as from the date of delivery of such items. It is also understood and agreed that the warranty period applicable to ordinary wear and tear parts shall be the normal life time of such items, such ordinary wear and tear parts having to be listed in an appendix attached to the concerned CONTRACT.

Notwithstanding above, buildings and civil works, including steel structure, roofing and cladding, are covered by a specific warranty period of 5 years counting as from the date of the relevant ACCEPTANCE of the WORKS AND/OR EQUIPMENT.

26.2.2. Notwithstanding Clause 26.2.1 here above, buildings and civil works, including steel structure, roofing and cladding, are covered by a specific warranty period counting as from the date of the relevant ACCEPTANCE and corresponding to:

- (i) the compulsory legal period of warranty, if such legal period of warranty is ten (10) years or more, or

(ii) a time period of five (5) years in all other cases.

26.2.3. Any other warranty period derogating from the above-mentioned warranty periods shall be expressly agreed upon by the PARTIES in a specific appendix attached to the concerned CONTRACT.

26.3 EXTENT OF WARRANTY

At any time before the end of any warranty period, the BUYER may notify in writing any defects noted on any part of the WORKS AND/OR EQUIPMENT. Upon receipt on such notification, the CONTRACTOR shall, at its own expenses and risks, and without unreasonably hindering BUYER's activities, start without undue delay and achieve as soon as possible to make all replacements, repairs, corrections, modifications, debugging that are necessary or useful for remedying any and all defects and particularly defects in design, construction, operation or erection of the WORKS AND/OR EQUIPMENT. The CONTRACTOR shall be entitled accordingly to reasonably carry out necessary repairs and/or replacements to cure the said defects, the PARTIES having to prior agree on the time schedule of such intervention(s).

The warranty period for all repaired, replaced or modified parts of the WORKS AND/OR EQUIPMENT as specified in:

- (i) Clauses 26.2.1 and 26.2.3 shall entirely restart for their respective time period as specified here above, as from the date of their respective replacement, repair or modification on; and
- (ii) Clause 26.2.2 shall continue to count until the expiration of the initial time period as specified in the said Clause, provided that the remaining time period as from the date of their respective replacement, repair or modification is longer than the time period as specified in Clause 26.2.1. If the said remaining time period is shorter, the applicable time period of warranty shall be duly extended for the time period as specified in Clause 26.2.1.

The following provisions shall apply in addition to point (i) of the second paragraph of Clause 26.3:

In case the warranty shall apply once more for the repair and/or replacement of the same part of the WORKS AND/OR EQUIPMENT for the same cause of defect, the warranty shall apply accordingly.

In such case:

- a. the PARTIES shall analyse the said cause of defect by taking into account all available information, reasonably investigate the real cause of the said defect as well as determine the most appropriate, durable and reliable solution to settle the cause of such defect;
- b. the CONTRACTOR undertakes to implement the above-mentioned solution, it being specified that in any case the warranty period as referred to in Clause 26.2.1 shall restart only once and definitively expires after the end of the said restarted time period;
- c. provided the real cause of such repeated defect is mostly due to BUYER's fault in operating the WORKS AND/OR EQUIPMENT, BUYER will reimburse the documented and justified costs related to the second CONTRACTOR's intervention in relation to the above-mentioned repair and/or replacement.

Subject to provisions of Clause 30 of the CONDITIONS, in any case of BUYER's notification in respect to noted defects and provided this is necessary for the analysis of the causes of such defects, the CONTRACTOR shall be entitled to consult, on SITE and in the state they are at that date, available automatic or re-transcribed monitoring records or reports relating to measured technical data of the WORKS AND/OR EQUIPMENT.

26.4 DISCLAIMER

The CONTRACTOR shall not be liable nor shall provide any warranty for defects and/or faults arising from:

- a) a force majeure event, as defined in the CONDITIONS;
- b) BUYER's negligence or non-compliance with the operation and/or maintenance instructions related to the WORKS AND/OR EQUIPMENT, if such action has had a direct impact on the warranty and provided that no CONTRACTOR's act or omission has concurred to the occurrence of such negligence or non-compliance;
- c) ordinary wear and tear parts and consumables as listed in a specific appendix attached to the concerned CONTRACT;

- d) any major change by the BUYER of models or designs of the WORKS AND/OR EQUIPMENT and/or spare parts, if such changes were carried out without the CONTRACTOR's written approval and have had an effective impact on the warranty;
- e) removal or transfer of the WORKS AND/OR EQUIPMENT or any part thereof and spare parts by the BUYER from the place where they were originally installed on SITE without the CONTRACTOR's prior information, if such removal or transfer has had a direct impact on the warranty;
- f) operation of the WORKS AND/OR EQUIPMENT or any part thereof under conditions more severe than those specified in the concerned CONTRACT.

For each of the above-listed points, due evidence of the occurrence of such fact and of its effective impact on the CONTRACTOR's obligations shall be given by the CONTRACTOR within a reasonable time period.

27 LIABILITY

27.1 GENERALITIES

The CONTRACTOR is liable for damages pursuant to this Clause 27, whether arising in LAW or the CONTRACT, resulting from defective WORKS AND/OR EQUIPMENT or from the performance of a CONTRACT.

27.1.1. Notwithstanding any other provision of the CONTRACT, neither PARTY shall be liable to the other for loss of income, loss of anticipated profits, loss of use, loss of capital, loss of business and/or loss of business opportunity, loss of contracts, loss of revenue, loss of goodwill or reputation, or for punitive or exemplary losses whether arising in statute, tort, contract, under any indemnity provision or otherwise.

The cumulative liability of each PARTY for damages must not exceed 115% of the CONTRACTUAL PRICE including without limitation, all liquidated damages, indemnities, liabilities and re-payment of CONTRACTUAL PRICE payable by the CONTRACTOR and/or replacement of the WORKS AND/OR EQUIPMENT incurred or engaged by the CONTRACTOR in the CONTRACT, however, excluding:

27.1.3 For the avoidance of doubt, any amounts received from either PARTY's insurance policies to cover damages or losses shall not reduce the maximum liability set out above.

27.1.4 The CONTRACTOR shall be liable pursuant to this Clause 27, irrespectively of the fact that a portion of the WORKS AND/OR EQUIPMENT may be procured by the CONTRACTOR from third parties. The participation of such third parties, shall not release, decrease nor limit in any way the liabilities or obligations of the CONTRACTOR under any CONTRACT. The inspections, TESTS and verifications performed under the CONTRACT, or any approvals given by the BUYER regarding the WORKS AND/OR EQUIPMENT shall not modify, reduce nor extinguish the CONTRACTOR's liability under the relevant LAWS and CONTRACT.

27.1.5 Notwithstanding the above, the CONTRACTOR's liability under the CONDITIONS, the CONTRACT, the LAWS and/or compulsory requirements applicable to the SITE, for any and all damages suffered by the BUYER to existing premises and/or installations, shall be limited to the maximum amount of twenty million euros (EUR 20.000.000).

27.1.6 In case of losses and/or damages suffered by and/or caused to the BUYER, the BUYER shall inform the CONTRACTOR without undue delay of the occurrence of the said losses and/or damages and shall make its best efforts to mitigate the detrimental consequences arising therefrom.

For the purpose of the above, the PARTIES agree that the subcontractors of the CONTRACTOR shall not be granted of any rights and remedies under this Clause and shall not accordingly be considered as being third parties. In such case, applicable laws shall apply, in particular art. 474 of Polish civil code.

Non fulfilment of any of the CONTRACTOR's contractual obligations shall entitle the BUYER to the following remedies, without limiting nor prejudicing any other BUYER's rights:

When liquidated damages are paid by the CONTRACTOR to the BUYER in compliance with the foregoing provisions, the BUYER shall not be entitled to raise any other claim in strict relation to said delay, except in case the ascertained global delay incurred under the CONTRACT shall lead to an overrun of the maximum thresholds of liquidated damages for delay as specified here above. In such a case, the BUYER shall be entitled to recover all other rights and/or remedies against the CONTRACTOR if permitted by the LAWS and/or CONDITIONS/CONTRACT.

Provided a reference to "Reimbursable Damages" (or "RD") is expressly specified in front of the concerned event(s) in the CONTRACT, if the CONTRACTOR fully complies with the date of the INDUSTRIAL COMMISSIONING or the ACCEPTANCE as specified in said CONTRACT, the CONTRACTOR shall be paid back in whole or in part of the liquidated damages for delay the CONTRACTOR already paid due to the delay that affected the achievement of the above-mentioned event(s), provided and to the extent the BUYER did not directly nor indirectly suffer the losses arising from the above-mentioned delay.

- *the contractual **liquidated damages** applicable with the applicable tolerance limit(s); as well as*
- *any possible reference to "Make Good", it being specified that in such case the CONTRACTOR shall carry out any and all steps and actions necessary or appropriate to achieve the applicable tolerance limits.*

The amount of contractual liquidated damages for non achievement of contractual performances shall be specified per expected contractual performance in the concerned CONTRACT and shall be payable at the relevant date of ACCEPTANCE, it being specified that the global maximum amount for all such liquidated damages shall stand at ten percent (10%) of the total CONTRACTUAL PRICE of the said CONTRACT and that such liquidated damages shall be BUYER's sole remedy in case of non achievement of the expected performances as specified in the said CONTRACT, under the strict exclusion of the performances for which the Make Good shall apply.

In any case, the global aggregate amount of contractual liquidated damages to be paid by the CONTRACTOR under any CONTRACT pursuant to Clause 29.2 of the CONDITIONS shall be expressly limited to fifteen percent (15%) of the total CONTRACTUAL PRICE of the said CONTRACT.
