## REQUEST FOR QUOTATION no. 06/034/2021

Due to realization of project called “*Development and demonstration of an intelligent cooling system for a metallurgical unit by closing and integrating water circuits, increasing the operational reliability of the metallurgical process and improving the efficiency of industrial cooling water use.*” (project no. POIR.01.01.01-00-0034/18), co-financed from the funds of the European Regional Development Fund and as part of the Smart Growth Operational Program 2014-2020, sub-measure 1.1.1 (the call for proposals organized by the National Centre for Research and Development, no. 2/1.1.1/2018) and in relation to the obligation to make purchases based on the most economically advantageous offer, while observing the principles of fair competition, effectiveness, openness and transparency, **the Company ArcelorMittal Poland S.A.** makes a request for quotation concerning **modernization of cooling system at Blast Furnace no. 2 in Dąbrowa Górnicza.**

**A detailed description of the subject matter of the contract is provided in point III of the inquiry.**

### I. BUYER:

#### **ArcelorMittal Poland S.A.**

### II. PROCEDURE:

- II.1. This procedure is not subject to the provisions of the act of 29th January 2004 on Public procurement law (i.e. J.oL. of 2021, item 1129, 1598).
- II.2. This procedure is awarded in a mode consistent with the principle of competitiveness.
- II.3. This procedure is performed in accordance with the principle for fair competition, effectiveness, openness, transparency and equal access.
- II.4. The Buyer shall make every effort to avoid any conflict of interest understood as the absence of impartiality and objectivity.
- II.5. The present procedure shall be carried out in accordance with the Contract awarding regulations (hereinafter: Regulations) which is in effect at the Buyer's company.
- II.6. The Contract Awarding Regulations are available at the Buyer's headquarters (Al. J. Piłsudskiego 92, Dąbrowa Górnicza) and on the Buyer's website.
- II.7. The Buyer reserves the right to:
  - a) change the content of the request for quotation inclusive of a change of the procedure conditions,
  - b) close the procedure without the selection of any of the bids or cancellation of the procedure at any of its stages, without the indication of cause.
- II.8. The changes introduced in the request for quotation shall be communicated by the Buyer to the Bidders in each of the manners specified as a form of publication specified in the Regulations.
- II.9. The Buyer reserves itself the right to ask the Bidders at each stage of the procedure for additional information, documents or explanations. The Buyer shall contact the Bidder via electronic means specified in the content of the bid sent by the Bidder.

- ~~II.10. The Buyer reserves itself the right to undertake negotiations with all Bidders, who submitted a bid that meets the access conditions (i.e. the conditions for participation in the procedure) specified in the content of the request for quotation. The negotiations shall be run according to the following rules:~~
- a. after the lapse of the bids submission deadline, the Buyer shall notify all of the Bidders, who submitted their non-rejectable bids about the possible execution of negotiations and shall invite those Bidders for negotiations, whereby the meeting dates shall be arranged individually with each Bidder,
  - b. the arrangements concerning the date of negotiations shall be run via electronic mail,
  - c. the negotiations shall solely cover those parameters which constitute the bids evaluation criteria,
  - d. the flow of the negotiations shall be documented in the form of a written report signed by the negotiation teams of the Buyer and of the Bidder,
  - e. within the deadline determined by the Buyer, the Bidder submits a modified bid which takes into account the arrangements from negotiations. The modified bid may not contain conditions which are less beneficial than the original bid,
  - f. in case the Bidder refuses to take part in the negotiations, the negotiations fail to lead to binding arrangements or the Bidder fails to submit a modified bid, then the originally submitted Bidder's bid shall be subject to evaluation,
  - g. The Buyer may ask the Bidders to give their consent to an extension of the bid validity period.
- II.11. In case of closing of the procedure without a selection or cancellation of the procedure, the Buyer shall immediately inform the Bidders, who submitted the bids and publish a relevant information.

- II.19. In the situation when the Ordering Party receives from the Bidder the offer in only one language version, the Bidder is obliged to deliver to the Ordering Party the relevant translation within two weeks from receiving the request from the Ordering Party via e-mail. The translation shall include all the clarifications made by the Bidder.

### III. DESCRIPTION OF THE CONTRACT SUBJECT MATTER (TOGETHER WITH AN INDICATION OF THE CPV CODES):

Code / CPV codes<sup>1</sup>: 42500000-1

Name of CPV code: cooling and ventilation equipment

The subject matter of the contract is **modernization of cooling system at Blast Furnace no. 2 in Dąbrowa Górnicza.**

**A detailed description of the subject matter of the contract is provided in point III of the inquiry.**

---

<sup>1</sup> Pursuant to the Commission Regulation (EC) no. 213/2008 of 28th November 2007 amending the Regulation (EC) no. 2195/2002 of the European Parliament and of the Council on the Common Procurement Vocabulary (CPV) and the Directives 2004/17/EC and 2004/18/EC of the European Parliament and the Council on public procurement procedures as regards the revision of the CPV

---

The place where the subject matter of the order is performed is Dąbrowa Górnicza, Poland.

Due to the fact that the full description of the subject matter of the contract is a **business secret**, the BUYER informs the full description of the subject matter of the contract together with the drawings will be provided after the Bidder sends back a signed CONFIDENTIALITY STATEMENT (Appendix No. 3) attached to this inquiry.  
**The CONFIDENTIALITY STATEMENT must be signed by authorized persons on the Bidder's side.**

**Provision of access by the BUYER for Bidders to the full content of the description of the subject matter of the contract (i.e. the drawings) will be made electronically within 3 working days of receipt of the signed CONFIDENTIALITY STATEMENT.**

The Ordering Party will evaluate only offers of Bidders who signed the CONFIDENTIALITY STATEMENT and gained access to the full scope of technical specification, together with its attachments.

The site visit will take place upon the bidder's written request. The bidder may participate in the site visit after signing the CONFIDENTIALITY STATEMENT, a specimen of which can be found in Appendix No. 3.

**The CONFIDENTIALITY STATEMENT must be signed by authorized persons on the Bidder's side.**

**ATTENTION:**

**Due to the sanitary restrictions and rules resulting from the situation of the coronavirus pandemic and the internal rules of the Company in terms of work organization, and to meet the bidders' needs in terms of detailing the content of the subject of the quotation, the Buyer prepared a package of organizational solutions for bidders interested in participating in the procedure.**

**The first solution is the possibility of conducting a remote site inspection.** Details of remote site visit are listed below.

**The second solution is a video recording prepared by the Buyer regarding the existing infrastructure of the Company at the Blast Furnace Department and specific technical conditions that may affect the implementation of the subject matter of the order. Video can be played during 1 hour MS Teams session with explanations given by Buyer technical team.** The date of the video playback session will be agreed with the Bidder by an e-mail.

**DETAILED INFORMATION ON POSSIBILITIES FOR A REMOTE SITE VISIT:**

A remote site visit will be held by video connection between the Buyer and the Bidder at the agreed time through the MS Teams application with the possibility of using a microphone and a camera. The vision takes place in the form of a videoconference, which can be maintained via a computer connected to Internet, after receiving an invitation from the Buyer.

After receiving an e-mail from the Buyer to the e-mail address indicated earlier, please join the meeting by pressing the "Join meeting" button (or a similar button - depending on the platform used).

The Bidder, agreeing on the date of the vision, must indicate the names of the people who will participate in the remote vision. Due to the organizational reasons, the Bidder has the right to include a maximum of 10 participants.

In case when the user has never used a videoconferencing platform, it may be necessary to install a plugin to enable the use of the videoconference platform. Due to the number of videoconference and the applicable time limit for each video meeting, it is very important for the Applicant to log in on time, taking into account several minutes of spare time for technical matters, such as checking the microphone, webcam and Internet connection stability. The Buyer is not responsible for any technical aspects of organization of the remote vision by the Bidder.

Before videoconference starts, make sure the camera is not covered and that the microphone and speaker in the workstation are working properly. **The Bidder cannot record the course of the meeting (complete ban).** A voice recording of the meeting will be done by the Buyer.

The panel meeting takes place in the form of questions and answers.

---

The Bidder will have the right to participate in one remote site visit that will last no longer than 2 hours. The date of the remote site visit will be agreed via e-mail correspondence.

**Deadline of order completion:**

**67 weeks from the conclusion of the contract with the selected Bidder. The completion is divided into 3 stages:**

- **Readiness to blow down the Blast Furnace No. 2: 42 weeks from the conclusion of the contract (entry criterion),**
- **Work completion time from blowing down the BF2 to achieving operational readiness on the cooling system (when WP2 is during standstill): 90 days (entry criterion),**
- **Confirmation of the achievement of the guaranteed parameters: 1 month from blowing in the BF2 (entry criterion)**

**The duration of the individual stages of order completion described above is one of the entry criteria.** Offers that will indicate longer deadline of order completion will be rejected. Completion of the subject matter of the contract is understood as the signature by the Ordering Party of a fault-free Final Acceptance Protocol, during which the final confirmation of the achievement and compliance with the technical conditions of installation's operation takes place.

**Only those offers whose completion date is as specified according this inquiry or shorter than 67 weeks from contract's signature date are allowed for evaluation.**

**The Ordering Party reserves the right to change the date of implementation of the subject matter of the contract (purchase order) based on the status of the project implementation, in the event of force majeure or other terms of the co-financing agreement.**

Due to the fact that the implementation of the subject matter of the contract covered by this request for quotation is related to the project implemented by the Ordering Party and is covered by the co-financing agreement and due to the rigors related to the period of expenditure eligibility related to, inter alia, commissioning of research equipment on time (which is directly related to delivery deadlines of the Bidder and the signature of the final acceptance protocol - constituting the last milestone in the implementation of the subject matter of the contract), the content of the contract for the implementation of the subject matter of the contract will include provisions regarding, (among others) contractual penalties related to resulting delays. The submission of the offer by the Bidder constitutes a written consent to the following terms of the performance of the subject matter of the contract, which will then be included in the content of the contract with the selected Bidder.

**Provisions regarding payment terms and contractual penalties that will be included in the content of the contract with the selected Bidder:**

1. Payment terms:

- a) For down payment: 30 days from invoice date
- b) For other payments: 60 days from invoice date

2. Liquidated damages:

The Contractor will be obliged to pay the Ordering Party the following liquidated damages:

- a) for failure to meet the deadline for BF2 blow down,
- b) for failure to meet the R.F.I.O.

The maximum amount of liquidated damages resulting from the delay indicated in point a) and b) shall not exceed 10% of the gross contract value.

- c) for failure to meet technical guaranteed parameters

No.	Performance parameter	Guaranteed value	Acceptable limit	Value of liquidated damages	Maximum Value of liquidated damages applied
				(% of contract price)	(max 10% of contract price)
1	Positive leakage test result on full pump parameters for all circuits. No water loss for tuyere set and hot blast stoves circuits, minimum 72h.	Water loss: 0 m <sup>3</sup> /72h	Water loss: 0,1 m <sup>3</sup> /72h	1% for every 0,025 m <sup>3</sup> /72h of difference between the guaranteed and the acceptable value	4%, if > 0,1 m <sup>3</sup> /72h: <b>make good</b>

The maximum sum of liquidated damages resulting from failure to meet the guaranteed parameters indicated in point c) may not be more than 10% of the contract value.

The maximum amount of liquidated damages resulting from the delay indicated in point a) and b) and failure to meet the guaranteed parameters indicated in point c) may not be more than 15% of the contract value.

**The submission of the offer by the Bidder will constitute a written consent to the above-mentioned conditions, which will then be included in the contract with the selected Bidder. The Ordering Party does not allow the possibility of negotiating the above conditions. The lack of confirmation in the offer of the possibility of meeting the above-mentioned conditions causes the necessity to reject the offer.**

#### Warranty requirements

- a. Warranty: min. 24 months starting from the signature of the final acceptance protocol (admission criterion). Offers with shorter warranty term will be excluded from the proceeding.

The policy must be valid / extended for the entire duration of the contract to the value indicated above</p>				
5	<p>Preparation and delivery to AMP of detailed and as-built documentation for the cooling system for tuyere sets covering the energy, mechanical, construction, electrical and instrumentation branch in accordance with the requirements of basic design and scope described in the Technical Specification</p>				
6	<p>Acceptance of the parameters of the Basic Design</p>				

7	Construction of the cooling system according to the assumptions of the basic design - a new cooling system including tuyere sets and hot blast stoves as well as installation of heat exchangers.				
8	Selection of a heat exchangers according to the assumptions of the basic design				
9	Acceptance of the scope of disassembly of cooling installations and steel structures in accordance with the requirements described in the Technical Specification				
10	Acceptance of documentation standards (point 2.1 of technical spec.)				
11	All necessary demolition works needed to perform the installation in accordance with the basic design and included in the Technical Specifications are within the scope of the tenderer's works.				
12	The Tenderer will submit a statement that, as part of the AGREEMENT, prior to the commencement of works on the facility, he will provide the Health and Safety organization plan for the whole scope - Health and Safety				
13	Providing a project manager in the period from signing the contract to signing the PAC				
14	Providing a health and safety inspector for the duration of demolition / assembly and acceptance works.				
15	Compliance of the cooling installation with the PiD drawings				
16	Confirmation of preparation of detailed design and placing of pumps on new pedestals in new pumping station below the hot blast stoves hall.				
17	Confirmation of preparation of detailed design and placing of pipelines of the new cooling system				
18	Confirmation of preparation of detailed design and execution of foundation of compensation tank				
19	Confirmation of preparation of detailed design and erection of				

	installation of utilities media for the cooling system: nitrogen				
20	Confirmation of preparation of detailed design and construction of an installation for refilling the fuel of combustion motors with diesel oil in the pumping station under the hot blast stoves hall.				
21	Acceptance of the material requirements included in the Basic Design				
22	Acceptance of cooling system tests before BF2 blow-in				
23	Presentation of acceptance protocols for pumps, valves, welds, tanks				
24	Confirmation of participation in tests of the automation system for cooling systems in accordance with the guidelines contained in the Technical Specification				
25	Acceptance of the list of pumps				
26	Acceptance of the list of fittings				
27	Acceptance of the list of measuring devices				
28	The installation of circulation and auxiliary pumps with measuring systems				
29	Installation of suction and pressure pipelines in pumping station below hot blast stoves hall.				
30	Installation of the control valve together with its power supply (if required) included in the design of the new cooling system				
31	Purchase of pipes for suction and discharge manifolds of pumps, fittings, mounting flanges, compensators and other necessary materials				
32	Buildings expansion tank with all the instrumentation, supporting structure and a casing protecting against weather conditions				
33	Installation of heat exchangers in accordance with the assumptions of the basic design and the requirements included in the specification				
34	Confirmation of preparation of detailed design and erection of the necessary platforms to operate the cooling circuit fittings				

35	Marking the installation in accordance with the guidelines contained in point 6.2.5 i) of the technical specification				
36	Acceptance of the scope of commissioning of cooling systems specified in point 6.2.4				
37	Preparation of the floor and pedestals in accordance with the design prepared by the Contractor for the installation of new pumps with drives				
38	Confirmation of preparation of detailed design, delivery and installation of supporting structures for all pipelines included in the basic design, i.e. Blast Furnace, pump station below hot blast stoves hall.				
39	Acceptance of the entire scope: analyzes and checks of structures, detailed designs, calculations as well as civil, assembly and dismantling works - comprehensively, in accordance with the provisions of the specification.				
40	Acceptance of the design and execution scope in accordance with the requirements contained in the construction and building part.				
41	Disassembly of the rail track and construction of a hardened access to the pumping station under the hot blast stoves hall				
42	The use of continuous measurement of pumping station operating parameters (bearing temperature, vibrations, pressure, water temperature, etc.) in industry technology 4.0				
43	Provision of power for drives and I&C devices				
44	Construction of a drive control system				
45	Assembling all elements of the control and measuring instrument and the appropriate tests				
46	Performing system start-ups (cold and hot)				
47	Ensuring the implementation of a complete project in the electrical branch by authorized designers				

48	Ensuring the delivery of all necessary electrical devices without exclusions with the presentation of target suppliers at the offer stage				
49	Ensuring the possibility of performing FAT checks for key elements - inverters, switchgear transformers				
50	Ensuring the performance of all start-ups (LV part - switching stations, control, configuration of inverters etc. and MV - start-up of medium voltage fields), post-assembly tests and delivery of complete quality documentation				
51	Delivery of the materials contained in point 6.2.3 - Electric range				
52	Execution of the electrical scope in accordance with the assumptions of the technical specification				
53	Execution of anti-corrosion protection in accordance with the technical specification				
54	The minimum warranty period expected by the Investor is 24 months from the moment of signing the PAC protocol.				
55	Time from blow-down the BF2 to operational readiness ≤ 90 days				
56	Together with the offer, the contractor will provide a draft work schedule (on a weekly basis) for consultation with the Investor and approval. The schedule should take into account all important milestones (preparation of detailed documentation, prefabrication, deliveries of key elements, shutdown works, tests and commissioning) - based on attached to RFQ time schedule for milestones				
57	Time needed by the company to be ready to blow-down the BF2 maximum 42 weeks from contract signature				
58	The tenderer will provide a list of exclusions in the form of a responsibility matrix - relating to the subject of the contract that is not an entry criteria - IF APPLICABLE.				
59	The list of exclusions may not lead to partial implementation of the subject of the order by the Supplier.				

60	The purpose of the list of exclusions is to show the Supplier's responsibility for the performance of the subject of the order				
61	The list of exclusions may not constitute the scope of any supplementary or additional orders at a later stage of the project implementation				
62	Acceptance of performance guarantee: Compliance of the work and installation with documentation, including the construction part, installation of the pumping station under the hot blast stoves hall, supply and discharge pipework, collectors, power stations				
63	Acceptance of performance guarantee: Positive leakage test result on full pump parameters for all circuits. No water loss for the tuyere and hot blast stoves circuits, minimum 72h.				
64	Acceptance of performance guarantee: Positive result of the functionality test for control of drives and instrumentation				
65	Acceptance of performance guarantee: Visual assessment of the correctness of all works by both parties.				
66	Acceptance of performance guarantee: Positive result of all necessary technical inspections by Office of Technical Inspection (UDT) and Transport Technical Inspection (TDT).				
67	Acceptance of performance guarantee: Submission of complete as-built documentation.				
68	Acceptance of performance guarantee: Submission of documents necessary to apply for an occupancy permit for the system.				
69	Acceptance of performance guarantee: Completion of all construction works including provision of access to all cooling system fittings.				
70	Acceptance of performance guarantee: Keeping the work areas in good order.				
71	Pipeline isometry according to the base design				

72	Preparation of detailed design of placement of the station for conditioning of water circuits				
73	Fulfillment of fire protection requirements in accordance with the information contained in the technical specification.				
74	Any changes at the stage of developing the detailed engineering as compared to the base design must be notified by the Contractor and approved by the Investor and the BE contractor

**Criterion: price (C)**

**Weight: 85%**

1. Please specify the prices in net values (without VAT) as well as in gross values.
2. The price should be quoted in **EUR or PLN**.
3. Quotation of the price in another currency shall result in the Buyer's conversion of the price into **EUR**, using the exchange rate tables (Table A - Average exchange rates for foreign currencies) of the National Bank of Poland as of the date specified in item VII.1 according to request for quotation (final date for submission of offers).
4. In case of negotiations with the Bidders and submission of final bids by them, the Buyer's conversion to the **EUR** currency will be made using the exchange rate tables (Table A - Average exchange rates of foreign currencies) of the National Bank of Poland as of the day specified in item 3 above.
5. Regardless of the prices quoted by the Bidder in a currency other than **EUR**, the currency of the contract concluded with the Bidder selected by the Buyer is **EUR**
6. These prices must include all costs related to the implementation of the subject matter of the contract, including:
  - 1) the value of modernization of cooling system at Blast Furnace no. 2 in Dąbrowa Górnicza
  - 2) VAT,
  - 3) all materials and devices used,
  - 4) labor and equipment costs,
  - 5) transport costs,
  - 6) all fees related to the subject of the order,
  - 7) insurance costs,
  - 8) costs of loading and unloading,
  - 9) all costs related to the comprehensive performance of the contract,
  - 10) all fees and compensations for damages, costs and losses incurred in connection with the implementation of the order.

The offer with the lowest price will receive 100 points multiplied by the weight of the criterion and will be accepted as the basis for examining the remaining offers. The scoring for the prices of subsequent offers will be made according to the formula:

$$\text{Criterion „C”} = \frac{\text{Lowest price}}{\text{Price of the examined offer}} \times 100 \text{ pkt} \times 85 \% \text{ (weight of the criterion)}$$

**Criterion: Technical parameters (TP)**

**Weight: 5%**

**The awarding of points for this criterion will take place only after all entry criteria specified in point IV.2 of this inquiry will be fulfilled.**

The evaluation will be carried out according to presented descriptions specified in the offer under 4 groups indicated below:

Item	Group	S.No	Parameters	Group Rating	Subgroup Rating	Total Subgroup Rating
A	<b>Performance Guarantees / Quality</b>	1	Positive leakage test result on full pump parameters for all circuits. No water loss for the tuyere and hot blast stoves circuits, minimum 72h.	50%	100%	100%

		3	Prepared according to the Ordering Party's guidelines, every two-weekly reports specifying the% of work performed in relation to the assumed plan;		20%	

**Criterion: Time needed for complete delivery of cooling staves and accessories to ArcelorMittal Poland DG**

t – amount of weeks from the date of contract's signature until the last delivery of staves to ArcelorMittal Poland

t <= 38 weeks until BF2 blow down - RD = 10%

t = 39 weeks - RD = 8%

t = 40 weeks - RD = 6%

t = 41 weeks - RD = 4%

t = 42 weeks - RD = 2%

t => 43 weeks - RD = 0%

Description of the manner of granting of points for the fulfilment of a given bid evaluation criterion.

**Criterion: Price (C)**

Score will be calculated as a proportion of the lowest price among the submitted bids to the price from the examined bid in the procedure, multiplied by the criterion weight.

C = (C<sub>mn</sub> / C<sub>nob</sub>) x 85 where:  
 C - number of points for a price  
 C<sub>mn</sub> - net price of the lowest bid  
 C<sub>nob</sub> - net price of the examined bid

**Criterion: Technical parameters (TP)**

**Description of the adopted method for assessing the technical parameters (TP) of the offer:**

The above table will allow you to make a summary assessment of the offered technical parameters of the offer based on the following formula:

**Calculated element value [%] = received evaluation for offered parameter [points] x weight value of element [%] / 5**

**Criterion: RD – Time needed for complete delivery of cooling staves and accessories to ArcelorMittal Poland DG**

t – amount of weeks from the date of contract's signature until the last delivery of staves to ArcelorMittal Poland

t <= 38 weeks until BF2 blow down - RD = 10%

t = 39 weeks - RD = 8%

t = 40 weeks - RD = 6%

t = 41 weeks - RD = 4%

t = 42 weeks - RD = 2%

t => 43 weeks - RD = 0%

The total number of points granted to a given evaluated bid is the sum of points granted under individual criteria:

**Final rating of the offer = C + TP + RD**

Analysis and evaluation of offers will be made by the Suppliers Selection Committee. Firstly, the formal conditions and entry criteria will be assessed. **The Ordering Party may request explanations regarding the content of submitted bids at each stage of the proceeding, corrections of obvious clerical errors, obvious accounting mistakes, taking into account the accounting consequences of the corrections made, other errors which make offers not consistent and do not significantly change the content of the offer.** Obvious mistakes are corrected by the Buyer in a special form, notifying the bidder whose offer has been corrected.

If the Bidder does not correct errors until the deadline indicated by the Ordering Party, his offer will be rejected.

Next, the Suppliers Selection Committee will assess the fulfillment of the conditions required from Bidders. It will determine which offers will be rejected and if the tender needs to be cancelled.

With regard to Bidders who meet the conditions for participation in the proceedings, the Suppliers Selection Committee will select the most-advantageous offer in accordance with the bids evaluation criteria indicated in the request for quotation.

Information on the selection of the best offer (including the name and address of the winner of the proceedings) will be posted on the websites of the Buyer and on the websites of Competitiveness Database (Baza Konkurencyjności).

1. Buyer will select the most advantageous offer that obtains the largest number of summed up points.
2. If, as part of the purchase of services and supplies necessary for the implementation of the Project, Buyer will decide between several offers that are most economically advantageous, it will choose an offer that is more favorable in terms of environmental and climate impact.

Assessment based on the answer to the question: Do you use the Integrated Management System? (YES/NO).

In connection with the above, Buyer asks you to provide in the content of the offer information about the use of the Integrated Management System in your company, including: which includes the ISO 14001 environmental management system. (YES, we do/ NO, we don't).

In the event of failure to provide the aforementioned information in the offer, Buyer will assume that the Integrated Management System is not used by a given Bidder.

The lack of the aforementioned information in the content of the offer does not affect the formal assessment of the completeness of the offer and does not cause its rejection.

3. If there is still a situation with an equal number of points and Buyer will still settle between several offers with an equal number of points, Buyer has the right to call the Bidders whose offers received the highest final number of points to supplement the offer by providing the information on the environmental impact of the subject of the offer indicated by Buyer (e.g. . lower energy consumption, lower water consumption, use of recycled materials, etc.).

#### **VI. INFORMATION ABOUT THE PERFORMANCE BOND REQUESTED BY THE BUYER (IF THE BUYER DEMANDS SUCH BOND):**

- VI.1. The Buyer reserves itself the right to demand from the Bidder, whose bid was selected, a performance bond for the Agreement, hereinafter referred to as the 'bond'.
- VI.2. The bond shall be used to cover the claims related to the non-performance or improper performance of the Agreement and as a return of advance paid to the Bidder. If the Bidder is a guarantor at the same time, the bond will also be used to cover the claims related to a quality guarantee.
- VI.3. A detailed description of the requested bonds is in accordance with the provisions of the contract.

#### **VII. PLACE, DEADLINE AND PROCEDURE FOR SUBMISSION OF BIDS:**

- VII.1. **The bids must be submitted until 24.01.2022 16:00 (4:00 p.m.)**
