

Dąbrowa Górnicza, 24.06.2021

**Communique regarding the change of the content of the RFQ concerning procedure No. 3/0784/2021**

In connection with the initiated proceedings in the field of modernization of Control Block in rails finishing area of the rolling mill in Dąbrowa Górnicza carried out as part of the project *“Interoperational railway rails with standard and increased operating properties, intended for the construction of large- and conventional-speed railway lines, being characterized by very good flatness of the running surface and increased safety indicators resulting from the low level of residual magnetism”* (project No.: POIR.01.01.01-00-0784/17) co-financed from the funds of the European Regional Development Fund and as part of the Smart Growth Operational Program 2014-2020, sub-measure 1.1.1 *“Industrial research and development work carried out by enterprises”*, we hereby inform you that in the content of the published procedure, the following changes are introduced:

- Point 2 sub-point 1) of Appendix 1a is changed in the Polish version of the Request for Quotation (marked in green),
- Requirements regarding references and reference list are removed from the Request for Quotation and the related wordings are treated as void (marked in red),
- Appendix no. 5 to commercial bid form is void (marked in red),
- The file “automation system requirements” is updated.

In view of the above, we publish the updated content of the Request for Quotation and automation system requirements.

The remaining provisions of the Request for Quotation remain unchanged.

**Yours sincerely,  
Ordering Party's team**
